

Pickleball Courts

Eastchester Recreation:

Working with Sport Tech Michel Edgerton 914-260-8475

Rye Recreation:

Currently using 3 pickleball courts on existing basketball courts. Leave nets locked on fens for players to pull out and put away. They get the combo code when making a court reservation on "Court Reserve". Nets ordered from www.pickleballcentral.com

Mount Kisco Recreation:

Although tennis courts are not ideal for pickleball courts if that's what you have to work with, we recommend using a color for lines that doesn't stand out against the tennis lines but that also isn't too close to your court color. Recommend SportTech and Oval Tennis for painting lines.

Yorktown Parks and Rec:

Suggest using designated Pickleball Courts.
Recommend SportTech and Oval Tennis.

Mount Pleasant Recreation:

Simplest, quickest and cheapest solution is painting lines on the tennis courts. Can use crank to lower tennis net or tighten belt in middle of net.

Clarkstown Recreation:

Building 9 courts with lights for pickleball but presently using a few courts in their hockey rink.

Peekskill Recreation:

Getting quotes from Sport Tech
